EDUCATION

TECHNO MAIN SALT LAKE (Formerly, TECHNO INDIA) (130)

Bachelor of Technology in Information Technology

2023 – 2027

Kolkata, West Bengal

TECHNICAL SKILLS

Languages:	Python, C, Java, JavaScript, HTML, CSS
Frontend:	React JS, HTML/CSS, Responsive Web Design
UI/UX Design:	Figma, Wireframing, Prototyping
Tools & Platforms:	Git, GitHub, VS Code
AI / ML (Beginner):	Basic Machine Learning concepts, AI app integration
Core Strengths:	UI Design, Rapid Prototyping, Problem Solving, Teamwork

EXPERIENCE

UI Designer

Oct 2024

Nirmiti Startup

- Crafted an emotionally engaging UI for an AI-based mental health app with chatbot, mood logging, and direct psychiatrist consultation features.
- Partnered with developers and product managers to deliver user-centered mockups and refined experience flows.
- Ensured accessibility and typographic clarity across all screens, producing a cohesive and inclusive layout.

Hackathon Participant — Smart India Hackathon (SIH) Internal

2024

- Contributed to full-stack development, wireframing, and solution architecture under strict time constraints.
- Sharpened abilities in collaborative execution, rapid prototyping, and iterative problem-solving.

PROJECTS

AI Tutor App | Python, React JS, Claude API, GitHub

Apr 2025

- Engineered an AI-powered tutoring tool that personalizes learning paths and auto-generates quizzes for college students.
- Implemented a React JS interface with real-time feedback, topic cards, and progress monitoring capabilities.

Mindful Mate | Figma, UI/UX Design, Prototyping

Jan 2025 – Feb 2025

- Conceptualized and prototyped the complete UI for an AI-powered mental wellness companion app.
- Produced high-fidelity Figma mockups covering therapy booking, journal entries, and conversational AI interactions.
- Prioritized emotional safety and simplicity to create an inviting experience for first-time mental health app users.

AI Attendance System | HTML, CSS, JavaScript, React JS ([Live Project](#))

2025

- Architected a web-based AI-driven attendance system for automated, accurate student record management.
- Coded a fully adaptive interface using HTML, CSS, JavaScript, and React JS for cross-device compatibility.
- Reduced manual effort in attendance logging by integrating intelligent automation into the core workflow.

ACHIEVEMENTS & EXTRACURRICULAR

Nirmiti Startup — UI Design Recognition

2024

- Received a certificate of appreciation for delivering an empathetic, well-structured interface for a health-tech startup.
- Acknowledged by the founding team for outstanding contribution to product strategy within a cross-functional group.
